Dear Phil,

On behalf of the Association of Moving Image Archivists, we sincerely thank you for speaking at our first Digital Asset Symposium.

Thank you, too, for making DAS 2007 an unqualified success. We heard not only about the depth of the programming and quality of the speakers, but also about the ongoing need for information and opportunities to interact with colleagues as we work together to find solutions to preserving our digital culture.

We have been asked a number of times since the Symposium if presentations would be made available via the DAS 2007 website. If you would be willing to make your presentation available, please contact Laura Rooney in the AMIA office (lrooney@amianet.org) and she will make sure your presentation is included.

On behalf of AMIA, thank you. We look forward to working with you again.
